

Flexible working solution

Do you have extraordinary project?

The summer season is coming, lots of people will go on holidays OR Do you have an unusually high number employees sick at one moment?

we have solution for you – SYNERGIE TEMPORARY HELP

- flexibility, reactivity, cost & time saving all in one...

Synergie Temporary Help was established in 2002 as a sister company of Synergie s.r.o., in the Czech Republic. Both companies are part of the worldwide network of French personnel-consultancy firm Synergie.

Our services:

OUTSOURCING

This service provides an employee who can meet the client's exact needs. In this case, Synergie Temporary Help takes responsibility for labor-law issues with the employee, plus his/her personnel and salary management. In effect the client acquires a new staff member without being burdened by the necessary administration, increasing of head count plus extra personnel budget costs.

TEMPORARY HELP

This service is used for higher flexibility in case of immediate or short-term requests; for example on special projects, peak holiday period or staff illness. This service provides for short-term or medium-term allocation of employees, where we search for an administrative worker to act as a replacement or other type of help for our client. The entrance medical exam and safety measurement training is part of this service.

TRY & HIRE

This employment solution deals with a combination of temporary and permanent employment. Should the client wish to hire a person provided by the agency, such a person is an employee of the agency prior to the conclusion of a work contract. The agency is obliged to enable this process. This approach allows a client to assess the abilities of an employee before deciding on offering the employee a permanent position within the company.

RECRUITMENT

This is typical employee recruitment for administrative positions, plus also in the field of Human Resources. The recruitment service takes place with close co-operation with specialized teams of our sister firm Synergie s.r.o.; Finance & Banking, IT & Telecommunications, Sales & Marketing, Production & Logistics. We make use of a large database of candidates plus Consultants who have extensive knowledge and experience in their specific sector of recruitment.
